## SENIOR INTERNSHIP OBJECTIVE:

I am a college senior in Computer Science with a 3.87 GPA. I am seeking a 12-week internship in software development where I can apply problem-solving skills and my knowledge of industry-standard languages such as Python, and C#. Relevant courses taken include Data Structures, Algorithm Thinking, Web Development (HTML, CSS), JavaScript, and Database Design and Development (MySQL). I am creative, a good problem solver, and a fast learner. I communicate well with others, seek to build new skills, and work hard independently, as well as a team. Bilingual- Spanish/English.

## EDUCATION:

### **Bachelor of Science in Computer Science. (12/24 completion date.)**

*Brigham Young University-Idaho*

Sep. 2021-Present  
Rexburg, ID

#### Project Accomplishments:

- Coordinated a team effort to create a version of Minesweeper, the logic puzzle video game.
- Independently cloned a small-scale Gymshark website database using MySQL.

### **Associate of Science in General Studies**

*Brigham Young University-Idaho*

Sep. 2021-Dec. 2023  
Rexburg, ID

## WORK EXPERIENCE:

### **Customer Service & Food Preparation**

*Angelino's Restaurant*
